

Danish Chemical Society

5th Aarhus Winter Meeting

TRENDS IN MODERN CHEMISTRY

January 30, 2009

Department of Chemistry
University of Aarhus
Langelandsgade 140
DK-8000 Aarhus C.

Programme:

- 11.00 - Registration, Aud. 6
11.30 - Lunch (buffet, optional)
- 12.30 Welcome
12.40 **Professor George C. Schatz**, Northwestern University, Illinois, U. S. A.
"Nanoparticles, DNA, and Theory"
13.25 **Professor Flemming Besenbacher**, iNANO, Aarhus University
"Catalytic Model Systems and Surface Reactivity studied by High-Resolution, Fast-Scanning STM"
14.10 Coffee break
14.30 **Professor Harry L. Anderson**, University of Oxford, England
"Porphyrin Wires for Nanoelectronics and Medicine"
15.15 **Professor Kristoffer Almdal**, DTU Nanotech, Technical University of Denmark, Roskilde
"Fluorescent Sensor Nanoparticles. Synthesis in Segregated Media"
16.00 Coffee break
16.20 **Professor Christian Amatore**, Ecole Normale Supérieure, Paris, France
"Hyperemia in the Brain as Investigated by Ultramicroelectrodes: Coupling Between Oxidative Stress and Neurotransmission"
17.05 **Scientific Director Lars B. Wiebe**, Danisco A/S, Grindsted
"Applied chemistry as practised at Danisco"
- 18.00 Dinner (optional) Canteen,
20.00 Beer garden ("fredagsbar") (optional)

On-line registration at www.chemsoc.dk

Deadline for registration: January 19, 2009
